AUTO DRIP PAN FIRE CALLS OUT FIRE CHIEF

A clogged float in A. P. Freeman's Overland automobile was responsible for an early morning fire by fire chief W. W. Armstrong and his auto crew to the Krakauer, Zork and Moya building, corner of El Paso and San Francisco streets, at eight o'clock Wednesday morning. The drip pan of the auto filled with gasoline, caught fire and gave Freeman an uneasy 30 minutes until he succeeded in extinguishing the fire with his coat.

An alarm was turned in from the Santa Fe street fire and the chief made a hurry up run in his red devil auto, arriving just as the last drop of gasoline burned out. The car was not seriously damaged, but Freeman is in the market for a new auto coat.

Hot Ashes Cause Fire.
At 4:30 o'clock Wednesday morning the East El Paso fire department responded to a real fire on the dumping ground of the El Paso foundry, in the southeast portion. Hot ashes set the waste on fire. There was no damage.

REFORM WAVE IS STARTED IN JUAREZ

Three Americans are in Juarez Jail Charged With Beating Up a Negro; Civil Justice Leaves.

Juarez has started a wave of reform. By command of chief of police Andres Salas, all vagrants, thieves, pickpockets and others who have no visible means of support are to be arrested. Salas says they will be sent to the general court for 30 days and there they will be given an education in the art of making adobe bricks. The new order went into effect Wednesday.

Three Americans are held in the Juarez jail. They were sentenced to serve 30 days each on Wednesday on charges of having assaulted a Negro in a fight which occurred in the Rey de Copas saloon on Commerce street, Tuesday night. The Negro was not arrested. The men held gave the names of E. M. Kellogg, R. F. Watters and Chas. Wilson. Chief of police Salas has a pair of brass knuckles, which it is said were used in the fight.

Juarez is without a civil judge, but governor Antonio Rubago is expected to appoint one soon. Officials in Juarez express the opinion that Eduardo Delgado, who held the position under the Porfirio Diaz regime, will be named for the place.

Jose Lopez de Nava, who was appointed judge by governor Abraham Gonzalez, quit the job Sunday and came to El Paso. He left his resignation behind.

Mayor Jose J. Flores of Juarez, has returned from Chihuahua, where he spent several days on official business. Felipe Seijas was acting mayor during his absence.

SMUGGLED TRINKETS ARE SOLD UNDER THE HMMER
Walter Williams, auctioneer extraordinary for the government, had an "hot box" sale on the steps of the federal building Wednesday morning, which was conspicuous for the absence of the horses, as it was an auction of seized articles which had been smuggled from Mexico. Panama hats, drawn work, handkerchiefs, shawls, gloves, opals and silk goods were offered to the highest bidder. A crowd of idly curious and a few buyers were huddled on the steps out of the wind.

COUNTY ENGINEER GOES TO HIS WORK ON MOTORCYCLE
R. Nunn, who is in charge of the county engineering corps working on the county roads under construction, visits the work on a motorcycle. The machine was purchased by the county, and the license number for it taken out Tuesday afternoon. With the motorcycle it is expected that the county engineer will be able to cover more territory, and make frequent visits to the parts of the county where the road work is in progress.

DOUGLAS WITHOUT FUNDS TO OPERATE

Also is Without a City Court and Has No Police With Authority to Arrest.

Douglas, Ariz., March 26.—Douglas is seeking funds with which to continue doing business. Its present bank account consists of a row of numbers, bordering closely upon the red ink side of the ledger. In hope of wearing down the adamant determination of the municipal water commission and the finance committee of the city council has been arranged. At this time the possibility of securing \$25,000 with which to complete the year will be discussed. In conversation one of the water commissioners stated that the city is asking an impossibility as all of the water department cash is tied up in various funds which cannot be touched save for the particular purpose for which the fund was established. The only chance seems to be to make arrangements with one or the other of the local banks to carry the warrants. This would require payment of interest at the rate of six or seven percent.

The city's troubles do not end with being "broke." It has been determined that it has no legally established city court, this being the decision of superior judge Fred Satter in the case of City of Douglas vs. Christina Farque, appealed from the city court Monday morning city judge Barker was suspended indefinitely while various city officials commenced to bombard the legislature with appeals to prepare and present a measure containing an emergency clause. It is believed that this will have been done before the end of the week. In the meantime city police are without authority to act, save as individuals. All complaints must be filed and warrants issued by a justice of the peace.

The city well at the pump station on Fifteenth street will probably be shot with a 500 pound charge of dynamite, as a result of the efforts of Hubert H. Heath in bringing the matter to the attention of local business men and securing the \$100 needed to meet the expense. The well, which cost \$5,000, failed in its flow for several months, causing the city to sink additional wells two miles south of the city. This Fifteenth street well is to be abandoned. Heath believes that shooting the well will result in the breaking of the cap of malpais over an underground stream from the Chiricahua mountains. If successful, as he hopes, a flowing well would result.

E. Alexander Powell, a travel writer of note, will arrive in Douglas within the next few days, prepared to begin an automobile trip from the Mexican border to the Alaskan boundary, the entire journey to be made by automobile. He will be furnished an automobile by the local chamber of commerce as far as Tucson or Phoenix, which ever he may elect. His route includes the two places named, Yuma, San Diego, Los Angeles and north.

LEWIS IS ELECTED SENATOR BY ILLINOIS LEGISLATURE.
Springfield, Ill., March 26.—Col. James Hamilton Lewis, Democrat, received a constitutional majority in both houses to elect a United States senator. The ballot was: Lewis, Democrat, 164; Sherman, Republican, 9; Funk, Progressive, 22; Berlyn, Socialist, 4.

L. Y. Sherman, Republican, was elected United States senator for the short term when the legislature gave him a constitutional majority of 103 votes.

PORTALES PREACHER RESIGNS; TOWN OFFICIALS RENOMINATED.

Portales, N. M., March 26.—Rev. K. P. Aldredge has tendered his resignation to the Baptist church of this place. He will be located in Arkansas.

At a meeting of the townspeople to consider nominations for positions on the town board, soon to be elected, a resolution was read endorsing the present members of the board, after which each officer whose term expires in May was nominated to succeed himself.

HATCH IS APPOINTED TO POSITION IN DENVER OFFICE
Austin L. Hatch, assistant treasurer of the Tri-State Telephone company, has been promoted to be chief clerk to Philip Hamilton, special agent of the president of the Mountain States Telephone company, with headquarters in Denver. George S. Kimball, of Denver, has been appointed assistant treasurer of the Tri-State in El Paso. Mr. Hatch has been with the Tri-State company in El Paso since March, 1910.

er of note, will arrive in Douglas within the next few days, prepared to begin an automobile trip from the Mexican border to the Alaskan boundary, the entire journey to be made by automobile. He will be furnished an automobile by the local chamber of commerce as far as Tucson or Phoenix, which ever he may elect.
